

The man that's "on his feet" all day is the one that appreciates most a really good shoe.

He will find that the manufacturers of the Watson-Tanner shoe have anticipated his every wish and desire in their shoe—comfort, wearing qualities, and most of all "arch support."

The strongest foot breaks down under the continued strain of standing or walking—so it behooves every man who wishes to avoid "flat footedness" and all its troubles to buy a shoe that not only fits and wears, but that ALSO SUPPORTS THE ARCH of his foot.

Our J. E. Tilt Shoe does it. \$3.50 up.

**DETECTIVES TRAIL THE DYNAMITERS**

ATTEMPT TO DESTROY OTIS RANCH.

IMPERIAL, Cal., Oct. 4.—Sheriff Meadows of this county has placed guards around the property of the California-Mexico Land company on this side of the international line, and the officers of the company are guarding the property on the Mexican side.

General H. G. Otis and Harry C. Chandler of the Los Angeles Times are the principal stockholders in the company, which has vast holdings in both the United States and Mexico.

The burning of two large stacks of hay on widely separated parts of the company's ranch in Mexico today and the finding of coal oil scattered about led to the precautions.

LOS ANGELES, Oct. 4.—The veil of secrecy maintained by Chief of Police Galloway and all his subordinates since the explosion which wrecked the Times plant last Saturday became thicker and more impenetrable late today, when a report came in that the trail of the dynamite conspirators had been struck in this city.

Regarded as Important Clue.

"I regard the second clue quite as important as that which is engaging the attention of the detectives in San Francisco."

This was all that half an hour of interrogation could elicit from the chief.

One incident of the day here was the arrest of General Otis, proprietor of the Times on the charge of having criminally libeled Andrew Gallagher, a San Francisco labor leader in the columns of the Times. He was taken into custody while preparing to attend the funeral of Wesley Reeves, the young stenographer to whom he dictated the article on which the libel was based.

The arresting officer accompanied Otis to the funeral and then to a justice court where bail was arranged. The case will come up tomorrow on a habeas corpus hearing.

The charges against General Otis were contained in two warrants. They were issued some time ago in San Francisco, but as General Otis was in Mexico representing the United States as a special envoy to the centennial celebration, they were not served.

Warrants, however, were served on Harry Chandler, assistant general manager of the Times but he was released under a habeas corpus writ issued on the ground that the warrants were insufficient. The alleged libel was contained in an article criticizing not only Gallagher, but Mayor McCarthy of San Francisco and O. A. Tveitmo following the visit of Gallagher and Tveitmo to this city to confer with labor leaders regarding strike conditions here.

Funds to be devoted to the relief of families of the explosion victims received a large addition today when the American bankers association, which is holding its annual convention here, appropriated \$5,000 to the sums already appropriated by the various newspapers.

REESE AND BASS WANT COMMUTATION

A brief session of the board of pardons was held in the office of Governor Spry Tuesday, when the applications of Reese and Bass, sentenced for murder, for commutation of sentence was considered, but no decision was arrived at.

Reese was sentenced to forty years' imprisonment, and Bass was sent up for thirty years. The sentences were imposed by Judge Rolapp in the Second district court in May of 1903.

Reese and Bass were found guilty of the murder of J. E. McCabe on Seventeenth street in Ogden on November 5, 1902. The testimony tended to show that the murder was a willful and deliberate one. After a long trial the men were found guilty and the sentences imposed. The prisoners now ask that the penalties be commuted, but the matter will be reconsidered by the board at a later date.

## SOCIETY

MARTHA SOCIETY.

The Martha Society met with Mrs. Will Eccles Monday afternoon, when the plans for the annual event of the society, the Charity Ball, which is to be given Thanksgiving eve, and which will be the event of the season, were discussed and practical work begun.

The invitations and acceptances will include a long list of the most prominent people in the state. The ball this year will eclipse all previous social affairs given by this organization.

The society will meet with Mrs. A. P. Hibbs at the Utah Hot Springs, Monday, Oct. 17.

The local camp of the Spanish War Veterans will visit the Spanish War Veterans at Fort Douglas, Thursday evening, at which time a good time is assured the visitors.

RENO RATE CASE SET FOR OCT. 21

WASHINGTON, Oct. 4.—In some of what are known as the Pacific coast cases, heard by the Interstate Commerce Commission last year an order was made by the commission that the carriers keep an account of receipts from freight traffic under existing tariffs and prescribed by the commission. This double account was to be kept for the months of June, July, August and September of this year with a view to ascertaining whether the existing rates were unreasonable. By the terms of the order the carriers were required to report to the commission by December 1. Today an assignment of the so-called Reno, Nev., and San Francisco cases were made for Oct. 21, in Washington to hear evidence in support of an application by the railroads for an extension of the time in which to make a report.

The commission today also assigned the case of western freight tariffs for further hearing at Chicago October 25.

PROVOST OF UNIVERSITY RESIGNS.

PHILADELPHIA, Oct. 4.—Charles C. Harrison, provost of the University of Pennsylvania, tendered his resignation to the board of trustees today, to take effect at the end of the present year. Advancing age is given as the principal reason for his retirement.

## OTHER YOUNG MEN TO BE JAILED IN LOCAL BANK

O. W. Voigt, former assistant manager of the Electric Supply & Fixture company, who is charged with embezzling several hundred dollars from his employers, was brought to this city by Detective Pender last night and lodged in the city prison. It is understood that the young man has made a complete confession of the appropriation of the company's funds and has implicated a number of other persons. It is likely that other arrests will follow.

It is rumored that a former employee of the local office, who is now in Butte, Mont., will be brought back to this city and perhaps charged as an accomplice.

The books are now being audited. They are in very bad condition and show many irregularities. According to J. L. Fugate, representing the Salt Lake City office, it will require the work of several days to straighten out all the accounts and entries and ascertain the shortage. The books are to be audited from the date of January 1, 1908, at which time Voigt took charge of them, until October 1, 1910.

STIMSON FOR THE INSURGENTS

NEW YORK, Oct. 4.—Pledging himself if elected to a vigorous continuance and development of the progressive policies of Governor Hughes, Henry L. Stimson, Republican nominee, for governor, formally accepted the nomination today. Earlier in the day the new Republican state committee elected Ezra P. Prentiss of New York as its chairman to succeed Timothy L. Woodruff of Kings, an event which marked the passing of control from the old guard to the progressives under the leadership of Roosevelt.

Rather than engage in a multitude of specific pledges Mr. Stimson said he preferred that the people should judge of his conduct in the future by his conduct in the past.

In accepting the Republican nomination for governor of this state Mr. Stimson said today, in part:

"I am deeply impressed with the importance of the mission of the Republican party as a leader in progress. As our government, state and nation confront the successive problems raised by the great industrial and social changes of our country, the welfare of the people and the security of their material interests will be found to depend in a very large measure upon whether the leadership in such changes is taken by the Republican party."

"If the intelligent and prosperous business men of the country continue to participate in this movement, the necessary changes will be conservative and permanent. Should they, on the contrary, go into opposition, the necessary reforms would come, but they would come less wisely and with a more likelihood of disturbance to business and to the public."

After reviewing recent federal legislation, Mr. Stimson said:

"The coming campaign is a state campaign, to be decided upon state issues. In the case of our government, alarm against progress is not only groundless, but inconsistent. For a progressive and efficient state government is the surest safeguard against undue extension of federal power."

"Those who profess fear of undue activity of our national government should be the first to insist upon vigorous and forward policy in the state. States' rights will be best conserved by a vigorous fulfillment of state duties."

Mr. Stimson pledged himself to the essentials of constitutional progress, and also to use the constitutional prerogatives of the governorship to favor the principles of direct nomination.

ROAD SOLD TO HIGHEST BIDDER

SHERIFF BARLOW B. WILSON of Weber county today reported to the clerk of the district court that, at 12 o'clock, October 3rd, 1910, he sold to John Pingree, the highest bidder, at auction sale, the Ogden & Northwestern railroad for \$17,981.22, the property consisting of the railroad and rolling stock, extending from Ogden City to the Utah Hot Springs, commonly known as the Ogden Rapid Transit car system.

The sale was made to satisfy a judgment against the company in favor of John Pingree for \$13,317.70 and in favor of the executors of the estate of A. R. C. Smith, deceased, for \$4,556.75. A bill of sale of the property has been given to the purchaser.

The judgment was rendered in a friendly suit by John Pingree, to whom had been assigned certain bonds against the company, known as the Ogden & Northwestern Railway company, which was brought for the purpose of foreclosing a mortgage on the property which had been given as security for the indebtedness. Mr. Pingree had also purchased a judgment against the company in favor of A. R. C. Smith estate, amounting to \$4,556.75.

CONSECRATION OF CATHEDRAL

NEW YORK, Oct. 5.—Three cardinals, the most notable company of prelates of exalted rank ever assembled in this country, with a host of lesser church dignitaries, participated in the ceremonies of the consecration of St. Patrick's Roman Catholic cathedral here today. No less than sixty bishops from all parts of the United States and Canada were included among the prelates attending.

Most Rev. John M. Farley, archbishop of New York, was the consecrator of St. Patrick's in the ceremonies which mark the freeing of the cathedral from debt.

The occasion was further honored by the presence and participation in the rights of Cardinal Logue, prelate of All Ireland.

The sermon of the day was preached by Archbishop John G. Glenon of St. Louis, the youngest prelate of his rank in the world.

The ceremonies began by Archbishop Farley and his attendants marching three times around the edifice for the triple blessing of the outer walls. The essence of the ceremony within, completing the consecration, consists in the anointing of twelve crosses on the inner walls.

CENSUS RETURNS

WASHINGTON, Oct. 4.—Population statistics as enumerated in the 13th census were made public tonight for the following cities:

Jacksonville, Fla., 57,699, an increase of 29,270 or 103 per cent over 28,429 in 1900.

The First National bank has had placed in one of its large vaults a manganese steel mob and burglar proof safe, which is said to be the only safe of its size and kind west of the Missouri River.

Cashier John Pingree is rather proud of his new acquisition and says that when the bank's wealth is under the levers and bars of the new vault he rests secure in the knowledge that the gold and paper will remain there until the time lock releases the bolts and the combination is made to answer to hands trained in the manipulation of the mechanism.

The safe weighs 14,000 pounds and looks too solid to be disturbed by anything less powerful than a volcano.

CHOLERA ABOARD STEAMER

NEW YORK, Oct. 4.—The steamship Sant Anna, from French and Italian ports, now detained at Quarantine, had a case of cholera aboard. The victim, a man in the steerage, died on Sept. 25 and was buried at sea. Two other cases of intestinal trouble are under observation.

Meanwhile the Sant Anna, carrying 224 first class passengers, some of them prominent Americans, and 1,072 in the steerage, is held as a possible "cholera carrier" pending further investigation.

Other Ships Detained.

Announcement of the foregoing was made tonight by Dr. A. H. Doty, health officer of the port. In addition to the Sant Anna he has, as a precaution, detained at Quarantine the vessel Moltke from Genoa and Naples, and the steamship Virginia from Naples.

Tomorrow he will hold a conference with Dr. Walter Weyman, surgeon general of the United States Marine hospital service. Together they will map out a campaign of protection.

"Suspicious Cases" on Board.

Dr. Doty's statement discloses not only that a cholera patient died on board the Sant Anna, but that a steerage passenger, a "suspicious case," removed from the steamer Germania on Sept. 26, subsequently died. Examination, says Dr. Doty, shows that this also was a case of cholera.

Dr. Doty's statement was issued after an examination of the Sant Anna, which arrived last night from Marseilles, Naples and Palermo. The ship's surgeons presented a report of the death in the steerage caused by gastro-intestinal affection. The victim died within three days.

Dr. Doty's Statement.

Dr. Doty, commenting on the case, said:

"The history of the case indicates clearly that the man died of cholera. No other cases have developed on the voyage, but there are two cases of intestinal trouble among the steerage passengers at present."

"Cultures have been taken in these cases and the bacteriological examination thus far shows no evidence of cholera. The final result will be ready tomorrow morning. The inspection and examination of the Sant Anna shows that everything has been done on shipboard to prevent the spread of the disease."

Vessel From Genoa.

The Moltke, which also arrived last night from Genoa and Naples, has on board one suspicious case, a steerage passenger, but no action will be taken with the vessel until the result of the bacteriological examination is known.

The Sant Anna is regarded as a possible cholera carrier, and in any event passengers who have been exposed to the patients will be transferred to Hoffman Island.

BOMBARDMENT OF THE PALACE.

PARIS, Oct. 4.—The Echo de Paris prints a wireless dispatch from its correspondent dated St. Marie Lamer, Cape Blanchon, 9-29 p. m.

A revolution has broken out in Portugal. A great part of the army and all the navy have gone on the side of the Republicans. At 2 o'clock this morning a bombardment of the royal palace commenced. All ingress to the city has been forbidden. It is impossible therefore to secure and forward details.

Continuation of this has been received by the foreign office. Telegraphic communication with Portugal has been interrupted since 3 o'clock this afternoon. Portuguese legislation has no knowledge of a revolution.

THREE CARDINALS AT CONSECRATION OF CATHEDRAL

NEW YORK, Oct. 5.—Three cardinals, the most notable company of prelates of exalted rank ever assembled in this country, with a host of lesser church dignitaries, participated in the ceremonies of the consecration of St. Patrick's Roman Catholic cathedral here today. UTAH STATE FAIR JUDGE'S BUSY

SALT LAKE, Oct. 4.—The throngs of people who visit the state fair this week will find much pleasure and profit in the splendid exhibits on display. The mineral department occupies a building by itself, immediately north of the agricultural building, where in bold relief are displayed the vast and varied mineral resources of the state, together with methods of working up the ores taken from the mines.

The live stock exhibit is also a most instructive one, pure bred cattle reared in this state and thoroughbreds imported from their native haunts being shown in profusion.

The awards in the poultry department are being made today, L. C. Taylor, a poultry expert from Gibsonburg, O., being the judge. Hundreds of pens of choice varieties in domestic fowl are on display, and chicken fanciers may revel to their hearts' content among the finest specimens of their favorite strains of tame as well as game birds, the latter including golden pheasants, ring-necked pheasants, Amherst, Japanese and Reeves pheasants and a fine exhibition of wild doves.

The manufactures building is a store in what can be accomplished within the borders of the state by the combination of capital and labor, and many a lesson may be learned in the gentle art of supporting home industry by a visit through the beautiful manufactures building.

Many people have regretted the fact that the fair remains open only one week, when easily that amount of time could be devoted to the educational exhibits alone.

The work of the state university, agricultural college and branch experimental stations and dry farms; the branch normal; the Latter-day Saints university; the Brigham Young college; the deaf and blind school at Ogden; the industrial school and the public schools is shown in marvelous profusion.

The woman's department is a surprise to all beholders, and shows what is being accomplished in this state by women of taste and refinement.
